Transportation to and from Mekeel
Families that require busing must submit busing forms to their individual school districts by April 1. Forms can be obtained under the transportation section of their local district's website.

Tuition Assistance
MCA continues to offer tuition assistance to make Christian education a viable option to many families. The tuition assistance process is based on an examination of each family's financial profile through a secure third party company, FAST. Using data provided by the family, FAST reviews financial information and recommends a discount to MCA. The Tuition Assistance Committee then awards available funds using the recommendation from FAST. You can apply for these limited funds by contacting the Admissions Office for application instructions.

Withdrawal Policy: The overhead expenses of MCA do not diminish with the departure of students during the course of the year. As a result, the following withdrawal policy applies to all enrolled students: **$250/student, plus prorated tuition through the end of the month in which the student last attended.**
